

# **Daankwee Consulting**

*Modernization • AI Transformation • Workflow Optimization • Cloud*

## **CAPABILITY STATEMENT**

## OVERVIEW

Daankwee Consulting helps public-sector and regulated organizations modernize legacy systems, reduce operational cost, measurable and improve service delivery using practical cloud engineering and AI-assisted workflow automation. We deliver measurable outcomes fast—without unnecessary complexity.

## CORE COMPETENCIES

### AI & Automation

- AI-assisted workflow analysis and automation planning
- Document intelligence: summarization, risk extraction, and compliance support
- Modernization readiness scoring and 30/60/90-day roadmaps
- Proposal acceleration tools (GovWrite Assist™) and response structuring

### Cloud & Infrastructure Modernization

- Cloud architecture and migration planning (AWS / Azure / GCP)
- Legacy application refactoring and platform stabilization
- Containerization, CI/CD, and infrastructure-as-code adoption
- Performance, reliability, and cost-optimization improvements

### Public-Sector Systems Improvement

- Workflow redesign and operational efficiency initiatives
- Digital services implementation and service-delivery modernization
- Data governance-friendly automation (auditability and controls)
- Staff enablement, change support, and implementation playbooks

### Data & Integration Engineering

- API design and integration across line-of-business systems
- Data migration, transformation, and interoperability patterns
- Event-driven / batch integrations and monitoring
- Security-aware integration design (least-privilege, logging, traceability)

## DIFFERENTIATORS

- Outcome-driven delivery: clear scope, measurable ROI, and rapid iteration.
- Modernization with guardrails: security-aware patterns and audit-friendly workflows.
- AI that enhances—not replaces—teams: practical assistive automation.
- Reusable accelerators: RapidGov Summary™, GovWrite Assist™, and modernization scoring.
- Hands-on senior leadership: strategy + implementation, not slideware.

## NAICS CODES

541611 — Administrative Management & General Management Consulting Services

541330 — Engineering Services

541512 — Computer Systems Design Services

## ENTITY IDENTIFIERS

UEI: PENDING

CAGE: PENDING

## PAST PERFORMANCE (SUMMARY)

- State workforce program: modernization planning, automation roadmap, delivery governance.
- City government operations: document processing workflow redesign and automation enablement.
- Public colleges: modernization program support, cloud migration planning, and platform stabilization.
- Public health workflows: intake/process optimization and automation opportunity analysis.
